Harland Clarke Assists 300% Call Volume Spike during High-Impact Conversion

BACKGROUND

SF Fire Credit Union, founded in 1951 by San Francisco firefighters, with core values deeply rooted in trust, innovation, and member service excellence, sought to convert its 45,000 active online banking members to a new online and mobile banking platform.

CHALLENGE

The platform conversion made it necessary for members, in order to access their accounts, complete a new registration process when logging in for the first time. With call volumes expected to increase as much as 300 percent during the conversion, the credit union needed to increase its call-handling capacity by teaming with a contact center solutions provider with industry knowledge and experience that could support its goal for a positive and seamless member experience.

SF Fire Credit Union chose Harland Clarke Contact Center Solutions for its industry-wide reputation of ensuring member satisfaction and loyalty with quality inbound and outbound call support during conversions. Harland Clarke Contact Center Solutions provided the credit union with end-to-end support to help smoothly guide anxious members through a significant change event.
